

ABBC Purchase Feature Update

Dear Buyaladdin Users,

The Buyaladdin team is happy to share this important information regarding the ABBC purchase feature update schedule in the Buyaladdin application.

Within a couple of days, the updated Buyaladdin application will undergo a review on Android and iOS. If the respective platforms complete the review on time, the updated Buyaladdin app will be available for both app stores on 2020 October 16th, 00:00 AM GMT-4.

However, if there are some changes due to the store policies, the update might be rescheduled. The update will release both iOS and Android versions, and we would like to ask for your patience if there will be update delays due to the store policy.

The team is very grateful to our users, and to thank our supporters, Buyaladdin will be bringing more convenient and new features in the future.

We will be sharing new information through our official platforms.

Please stay tuned for more updates.

Buyaladdin Team
